

# SCHEMI CENTRALINE

Varianti Idrauliche CENTRALINE **TRI-CT4** | **TRI-CT6** e per la centralina Integrata nella stazione solare TRI-SS20-MC

	Valvola
	Dissipatore
	Collettore
	Accumulo
	Circolatore
	Piscina
	Convettore
	Riscaldamento
	Termostato
	Caldaia a legna
	Sonda
	Scambiatore

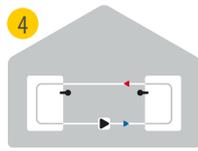

1 Solare con accumulo

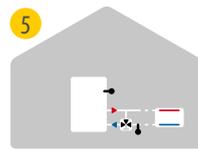

2 Solare con piscina

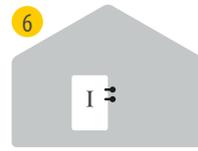

3 Caldaia a legna con accumulo

4 Carico accumulo

5 Innalzamento ritorno

6 Funzione termostato

7  $\Delta t$  universale

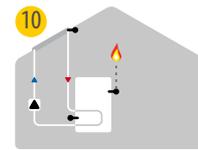

8 Valvola di chiusura

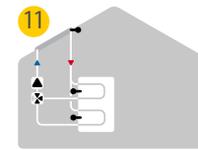

9 Solare con scambiatore calore (sonda sul secondario) e piscina

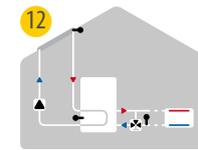

## Varianti Idrauliche CENTRALINE **TRI-CT4** | **TRI-CT6**

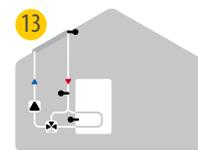

10 Solare con termostato (riscaldamento integrato)

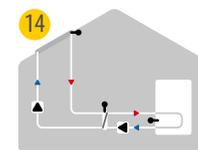

11 Solare con accumulo 2 zone

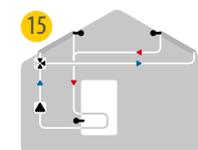

12 Solare con innalzamento temperatura ritorno riscaldamento

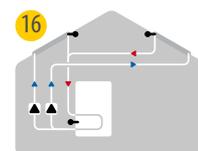

13 Solare con bypass

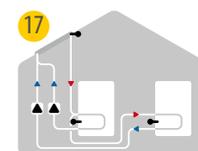

14 Solare con scambiatore

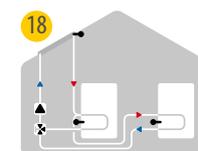

15 Solare con 2 collettori

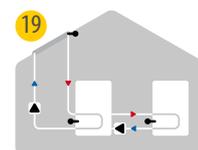

16 Solare con 2 collettori e 2 pompe

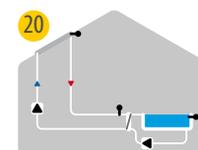

17 Solare con 2 accumuli e 2 pompe

18 Solare con 2 accumuli e valvola

19 Solare con carico accumulo

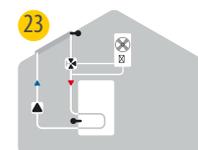

20 Solare con piscina e scambiatore

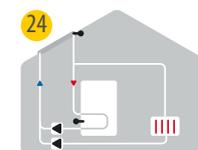

21 Solare con termostato e valvola

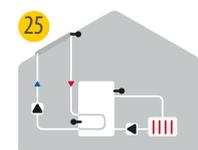

22 Solare con caldaia a legna

23 Solare con raffreddamento 1 (raffreddamento collettore)

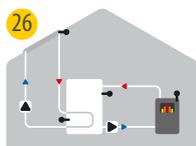

24 Solare con raffreddamento 2 (raffreddamento collettore)

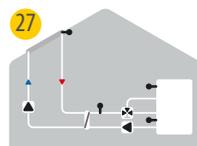

25 Solare con raffreddamento 3 (raffreddamento collettore)

# SCHEMI CENTRALINE

Varianti Idrauliche CENTRALINE TRI-CT6

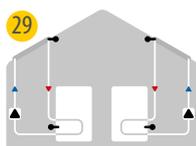

26 Solare con accumulatore e caldaia a legna

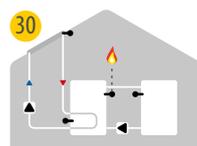

27 Solare con scambiatore e valvola di zona

28 Solare con scambiatore e 2 accumulatori

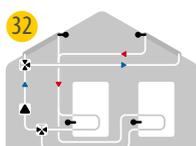

29 2x solare

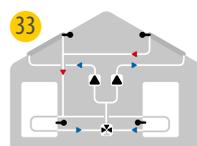

30 Solare con termostato e carico accumulatore

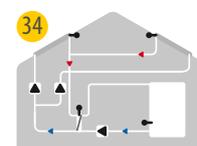

31 Solare con termostato e innalzamento ritorno

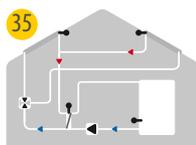

32 Solare con 2 collettori, 2 accumulatori e 2 valvole

33 Solare con 2 collettori, 2 accumulatori e 2 pompe

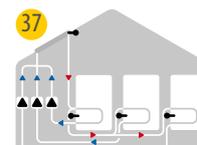

34 2x Solare con accumulatore, scambiatore e 3 pompe

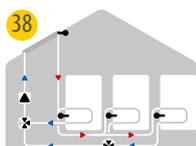

35 2x Solare con accumulatore, scambiatore e valvola

36 Solare con piscina, accumulatore, scambiatore e valvola

37 Solare con 3 accumulatori e 3 pompe

38 Solare con 3 accumulatori e 2 valvole
